

VIBRANTZ

TECHNOLOGIES™

Vibrantz is a leading global provider of specialty chemicals and materials whose purpose is to bring color, performance and vibrancy to life. Serving over 11,000 customers, our products and technologies serve a wide array of applications and make their way into myriad consumer products. With key competencies in particle engineering, glass and ceramic science and color technology, Vibrantz has leading positions in specialty mineral and chemical additives for batteries, electronic components and construction; pigments and colorants for paints and coatings, thermoset plastics and thermoplastics; and high-performance glass coatings and porcelain enamel solutions.

WHERE WE OPERATE

Headquartered in Houston, Texas, Vibrantz operates manufacturing sites in the Americas, Europe, Africa, Asia and Australia.

5,000+ employees
65 manufacturing sites
11,000 customers

BRINGING COLOR, PERFORMANCE AND VIBRANCY TO LIFE.

We enable versatility

We specialize in particle engineering, color technology and glass and ceramic science and transform raw materials into key components and products used across a wide range of industries.

We are innovative partners

Our 300+ years of expertise fuels how we think, engineer and create. We often research and develop arm in arm with customers and have built a reputation as a supplier and advisor.

We value our people

We believe deeply in engaging employees' heads, hearts and hands in the work we do daily toward achieving our purpose and positively impacting our world.

MARKETS SERVED

Agriculture, automotive and transportation, batteries, composites, construction, electronics, energy, fabrics, friction and abrasives, glass, health and personal care, home furnishings and appliances, metallurgy, packaging, paints and coatings, plastics.

BUSINESS UNITS

Advanced Materials

We are the premier manufacturer of specialty mineral and chemical additives and battery and electronic materials.

Color Solutions

Our pigment, dispersion and colorant technologies lead the way in serving the paints, coatings, thermoset plastics, thermoplastics and residential and commercial construction markets.

Performance Coatings

We provide functional glass coatings and porcelain enamel for industrial, automotive and decorative applications.
